

## Enagás, the only company in the world in its sector with the highest rating on the CDP Climate Change

- The company has been included on the CDP Climate Change A List for obtaining the highest score (A) in its sector in this corporate climate action index, where it has figured since 2009

**Madrid, 20 January 2020.** Enagás is the only company in the world in its sector included on the CDP Climate Change A List, which means it has achieved the highest score in this annual ranking.

This makes Enagás the world's most advanced company in its sector in terms of sustainability and environmental management, thanks to its performance and transparency in the fields of emissions reduction, managing the risks and opportunities arising from climate change, and promoting a low-carbon economy.

The inclusion of Enagás in this CDP index, which has assessed over 8,400 companies worldwide, is a further acknowledgement of its sustainability strategy and its efforts to combat climate change. It also confirms that the company's policies and activities in the area of sustainability are appropriate.

Enagás has reduced its global emissions by 50% since 2014, and the company's aim is to continue to reduce them by a further 25% by 2030, compared to 2018 statistics, and to make further progress in the area of energy transition in order to achieve carbon neutrality by 2050.

CDP is a not-for-profit organisation that aims to promote greenhouse gas reduction, forest protection and the safeguarding of water resources among companies and governments. Its procedures and methodology are considered a benchmark in corporate environmental transparency for investors all over the world.
